HAPPY NEW YEAR TO ALL OUR MEMBERS AND FRIENDS

On Friday 2nd January Professor Martin Millett from Cambridge University (a long time supporter and friend) spent the day at the centre helping to sort and begin to analyse plans and maps from Site 19 (Lightwater/South Farm) so as to indicate where on the site dated Roman pot can be sited, thus enabling both Martin and Dr Sarah Paynter (English Heritage) to continue the work on this extremely important archaeological site which will result in a written report which will then be published.

2015: the countdown to moving has begun!

We are doing a variety of archaeological tasks over the next few months and if you would like to become involved – no previous experience is necessary- please come along and join in, training and help will be given.

- ❖ Sorting glass from Site 38 (The Three Mariners, Bagshot)
- ❖ Sorting Building materials from a variety of sites
- ❖ Sorting metal

The materials are identified where possible, sorted into categories, weighed, the data entered onto Excel sheets and the materials either saved or discarded as is appropriate.

- ❖ Identifying site where Roman pottery was excavated from various contexts from Site 19 and locating on a map (all information is ready at hand)
- ❖ Boxing Library books for moving
